

2000 Servo Cutter Control Retrofit

(Limited Availability)

Davis-Standard are pleased to announce that a complete control retrofit package is now available (for a Limited Period Only) to suit the K2000 Series Servo Cutters and Servo Combo units.

This package includes the following and comes supplied as a completed and fully tested assembly.

- Membrane Panel
- Membrane Mount
- Main processor unit
- Main Display Board
- Secondary Display Board
- Transformer
- Interconnecting Leads
- Packaging and Shipment to site

For many years these boards have been obsolete and Davis-standard has been fortunate enough to secure a limited supply in order to support the owners of these valued machines.

Price per Retrofit Package (inc packaging and Delivery) €6758 Euro

Availability 10 Working weeks from Receipt of order Instructions
